The Mission & Executive Summary

The modern healthcare ecosystem demands a highly sophisticated level of leadership to navigate workforce stabilization, cost containment, and rapid data translation. The **Academy of Doctorally Prepared Nurses** and its companion open-access publication, the **Journal of the Academy of Doctorally Prepared Nurses**, serve as the premier national infrastructure designed exclusively for doctorally prepared nurse leaders (DNPs and PhDs). We invite forward-thinking enterprises, healthcare service providers, and philanthropic organizations to join us as **Founding Partners** to accelerate this vital professional pipeline.

*The mission of **Doctors of Nursing Practice, Inc**., and the **Academy of Doctorally Prepared Nurses**, and by extension the **Journal of the Academy of Doctorally Prepared Nurses** is to improve healthcare outcomes by promoting and enhancing doctorally prepared nursing professionals. This includes a structured collaboration model and process to include all nurses with a doctorate degree to demonstrate their respective talents and expertise, addressing important topics and issues.*

The collaborative infrastructure is in place, yet funding is needed to bring it to the next level to demonstrate a successful, concerted collective effort. Your investment and sponsorship will make this a reality.
